NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Nature of Business

General Sales and Leasing, Inc. (formerly known as General Aircraft, Inc.) (the “Company”) was incorporated in Nevada on August 9, 2011 and is engaged in the periodic rental of small aircrafts for personal and business use, in the Southern Nevada market. The Company is not limited to this activity and may, by executive decision, expand or alter its business activity at some future point.

For a nominal fee, the Company has acquired a wholly owned subsidiary named Shift It Media Company (a Nevada corporation) as of February 12, 2013. Shift It Media Company had no assets or liabilities as of the purchase date and has had no subsequent activity through the date of these financial statements.

As of February 13, 2013 the board of directors has consented and the State of Nevada has certified an amendment to the articles of incorporation to enable the company to change its name to General Sales and Leasing, Inc. The ticker symbol for General Sales and Leasing, Inc. will remain GAIF.

Effective February 25, 2013, the board of directors approved a forward split whereby each holder of record will receive ten shares for every one share held no later than February 28, 2013.

(B) Basis of Presentation

The accompanying unaudited Condensed Financial Statements of General Sales and Leasing, Inc. (formerly known as General Aircraft, Inc.) (the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles accepted in the United States for complete financial statements. The unaudited Condensed Financial Statements for the interim period ended February 28, 2013 include all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim period. This includes all normal and recurring adjustments, but does not include all of the information and footnotes required by generally accepted accounting principles (“GAAP”) for complete financial statements. Financial results for the Company can be seasonal in nature. Operating results for the six-months ended February 28, 2013 are not necessarily indicative of the results that may be expected for the year ended August 31, 2013. For further information, refer to the Financial Statements and footnotes thereto included in the Company’s Form10-K for the year ended August 31, 2012 filed with the Commission on December 14, 2012.

The Company has adopted an August 31 year end.

The Company is in the development stage in accordance with Accounting Standards Codification (“ASC”) Topic No. 915.

(C) Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and expenses during the reported period. Actual results could differ from those estimates. Changes in facts and circumstances may result in revised estimates, which are recorded in the period in which they become known.

(D) Cash and Cash Equivalents

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less to be cash equivalents. At February 28, 2013 and August 31, 2012, the Company had no cash equivalents.

(E) Overhaul Costs

Overhaul requirements established by the Federal Aviation Administration, aircraft airframes and engines must be overhauled within specific intervals. The value and usefulness of an aircraft can be heavily dependent on its stage of overhaul. For accounting purposes, airframe and aircraft engine overhauls encompass all inspections or replacements of major components, which the civil air regulations require at specific maximum periodic intervals to recertify that the frame or engine is completely airworthy.

The Company reports its overhaul costs in accordance with ASC Topic 908-360-30 (b). Overhaul costs are recorded utilizing the deferral method which requires the capitalization of costs when they are incurred. Under the deferral method, the actual cost of each overhaul is amortized to the next overhaul.

(F) Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization. Depreciation and amortization are calculated using the straight-line method and with useful lives used in computing depreciation. When property and equipment are retired or otherwise disposed of, the related cost and accumulated depreciation are removed from the respective accounts, and any gain or loss is included in operations. Expenditures for maintenance and repairs are charged to operations as incurred; additions, renewals and betterments are capitalized.

(G) Long-Lived Assets

The Company accounts for its long-lived assets in accordance with ASC Topic 360-10. ASC Topic 360-10 requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset's carrying value and fair value or disposable value.

(H) Financial Instruments

Financial instruments consist of cash, accounts receivable, accounts payable, and notes payable. Recorded values of cash, receivables, payables and accrued liabilities approximate fair values due to the short maturities of such instruments. Recorded values for notes payable and related liabilities approximate fair values, since their stated or imputed interest rates are commensurate with prevailing market rates for similar obligations.

(I) Loss Per Share

The Company reports earnings (loss) per share in accordance with ASC Topic 260-10. Basic earnings (loss) per share is computed by dividing income (loss) available to common shareholders by the weighted average number of common shares available. Diluted earnings (loss) per share is computed similar to basic earnings (loss) per share except that the denominator is increased to include the number of additional common shares that would have been outstanding if the potential common shares had been issued and if the additional common shares were dilutive. As of February 28, 2013, there were no potential common shares underlying warrants or options.

NOTES TO THE FINANCIAL STATEMENTS
(UNAUDITED)

(J) Revenue Recognition

Revenue is recognized in accordance with Staff Accounting Bulletin (“SAB”) No. 101, Revenue Recognition in Financial Statements, as revised by SAB No. 104. As such, the Company recognizes revenue when persuasive evidence of an arrangement exists, title transfer has occurred, the price is fixed or readily determinable and collectability is probable. Sales are recorded net of sales discounts.

Revenues, which do not require production, modification or customization and do not have multiple elements, are recognized when (i) persuasive evidence of an arrangement exists; (ii) service has occurred; (iii) the Company's fee is fixed and determinable; and (iv) collectability is probable.

(K) Income Taxes

Income taxes are accounted for under the asset and liability method in accordance with ASC Topic 740-10. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. When it is considered to be more likely than not that a deferred tax asset will not be realized, a valuation allowance is provided for the excess.

(L) Recent Accounting Pronouncements

We do not believe there are any recently issued accounting standards that have not yet been adopted that will have a material impact on the Company's financial statements.

NOTE 2 - GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has incurred a net loss of \$227,305 for the period of August 9, 2011 (inception) to February 28, 2013, and it is expected that it will continue to have negative cash flows as the business plan is implemented.

These conditions give rise to doubt about the Company's ability to continue as a going concern. These financial statements do not include adjustments relating to the recoverability and classification of reported asset amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to obtain additional financing or sale of its common stock as may be required and ultimately to attain profitability.

NOTE 6 - RELATED PARTY TRANSACTIONS

On August 22, 2011, the Company issued 10,000,000 shares of its restricted common stock to its two officers and directors for cash totaling \$10,000 or \$0.001 per share. On October 26, 2011, Mr. J. Duncan, CEO, CFO and Director tendered his resignation for all aforementioned positions effective immediately. In addition, Mr. S. Mullin, COO and Secretary also tendered his resignation effective immediately. Prior to the resignation of Mr. J. Duncan, the board appointed Mr. I. Johnson to act as President, Chief Executive Officer, Chief Financial Officer, Secretary and Treasurer of the Company. In connection with the resignations of Messer's Duncan and Mullin, each elected to sell their respective restricted common shares of the Company totaling 10,000,000, to Mr. I. Johnson.

On September 1, 2011, the Company entered into an Aircraft Use/Management Agreement with Elite Aviation VGT, LLC ("Elite") Mr. Ian Johnson, our sole officer is an employee of Elite. The term of the agreement is on a month to month basis with a ninety-day notification period for termination. Elite is wholly owned by the Company's former officers. Pursuant to the agreement, Elite has the authority to utilize the Company's Robison R44 helicopter in its ordinary course of business for rental and training purposes in exchange, Elite agrees to provide hanger storage and maintenance services at industry standard rates. In addition, Elite Aviation VGT, LLC ("Elite"), through their industry experience and contacts, assisted the Company in locating the R44 Raven. Elite also introduced the Company to various lenders, one of which subsequently provided the financing for the acquisition of the aircraft. The Company may seek Elite's assistance in connection the future purchase and/or financing of an additional aircraft.

On November 1, 2012, the Company terminated the Aircraft Use/Management Agreement with Elite Aviation VGT, LLC ("Elite") and replaced it with a Helicopter Lease Agreement with the same company. The lease agreement provides for income at a rate of \$185 per Hobbs hour, and stipulates that the lessee will be responsible for all maintenance and repairs, hangar parking fees, insurance fees, as well as fuel and oil costs in relation to the helicopter for the duration of the lease, which is the sooner of December 31, 2014 or the date upon which the helicopter reaches a Hobbs register reading of 2,200 hours.

During the first quarter of fiscal year 2013, Elite had the authority to adjust the end user rental rate from time to time to allow for fluctuations in operating costs. During the six months ended February, 28, 2013 the Company recognized an average rental rate was \$203.55. Prior to November 1, 2012, all repairs were at the Company's expense and billed by Elite at a rate congruent with the average local rate, subsequent to November 1, 2012 the lessee paid for these expenses. Also prior to November 1, 2012, parts required to be purchased by Elite for repair and maintenance were charged back to the Company and subsequent to November 1, 2012 the lessee is responsible for these types of charges. In addition, the Company was responsible for payment of all debt service, applicable property and other taxes, license and registration fees; hangar parking rate of \$350 per month; fuel and regular operating oil, calculated using the actual VGT field delivery rate of Elite prior to November 1, 2012. Also prior to November 1, 2012, management fees were paid as a percentage of gross revenue based upon the billable Hobbs hours each month as follows: 1) 0 to 10 hours =15% of gross revenue, 2) 11 to 25 hours =17%, and 3) 26 + hours =19%. During the six months ended February 28, 2013, the Company recorded revenue of \$65,524 as a result of its agreement with Elite. The related costs incurred for the six months totaled \$23,168 which is comprised of aircraft fees of \$9,880, fuel \$8,435 and management fees totaling \$4,853.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward-looking statements." These forward-looking statements generally are identified by the words "believes," "project," "expects," "anticipates," "estimates," "intends," "strategy," "plan," "may," "will," "would," "will be," "will continue," "will likely result," and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Company Overview

We were incorporated as General Aircraft, Inc. on August 9, 2011 in the State of Nevada for the purpose of owning and operating helicopters for use in sightseeing tours and as pilot training aircraft. We currently own one helicopter, a Robinson R44 Raven II, which is in service as a rental aircraft in the Las Vegas, Nevada area. The helicopter is currently hangered at North Las Vegas Airport, an executive and general aviation airport in North Las Vegas, Nevada. Under a Helicopter Lease Agreement with Elite Aviation VGT, LLC ("Elite"), Elite rents our helicopter at a rate of \$185 per Hobbs hour. Elite is responsible for all maintenance and repairs, hangar parking fees, insurance fees, as well as fuel and oil costs in relation to the helicopter for the duration of the lease, which is the sooner of December 31, 2014 or the date upon which the helicopter reaches a Hobbs register reading of 2,200 hours. We remain responsible for debt service, taxes, and license and registration fees for our helicopter. Currently, the helicopter has approximately 20 Hobbs hours remaining before reaching the 2,200 hour threshold. Upon reaching a Hobbs register reading of 2,200 hours, the helicopter will need to be completely rebuilt under applicable FAA regulations.

On February 11, 2013, we appointed a new sole officer and director, Ari L. Nagler, and moved our executive offices to Scottsdale, Arizona. Under Mr. Nagler's leadership, we are in the process of developing an online advertising business through our newly-formed subsidiary, Shift It Media Co. On February 25, 2013, we changed our corporate name to "General Sales and Leasing, Inc." in order to reflect the addition of this new line of business. Our new online advertising business began to generate revenues subsequent to the end of our February 28, 2013 fiscal quarter.

In light of the expenses which must be incurred in order to rebuild our helicopter, and in light of our shift in business focus, management is currently evaluating whether to continue in the aircraft ownership and rental business.

Results of Operations for the three months ended February 28, 2013, and February 29, 2012, and the period from August 9, 2011 (Date of Inception) through February 28, 2013

During the three months ended February 28, 2013, we generated \$32,560 in revenue from the rental of our helicopter. Our net operating expenses during the three months ended February 28, 2013 were \$14,315 and consisted of professional fees in the amount of \$17,523, depreciation in the amount of \$5,313, a refund of aircraft maintenance and fees in the amount of \$2,120, a refund of fuel and oil expense in the amount of \$3,502, and a refund of management fees in the amount of \$2,899. In addition, we incurred interest expense in the amount of \$3,162 during the three months ended February 28, 2013. Our net income for the three months ended February 28, 2013 was \$15,083. By comparison, for the three months ended February 29, 2012 we incurred a net loss of \$29,264.

During the six months ended February 28, 2013, we generated \$65,524 in revenue from the rental of our helicopter. Our net operating expenses during the six months ended February 28, 2013 were \$58,562 and consisted of professional fees in the amount of \$24,768, depreciation in the amount of \$10,626, aircraft maintenance and fees in the amount of \$9,880, fuel and oil expense in the amount of \$8,435, and management fees in the amount of \$4,853. In addition, we incurred interest expense in the amount of \$6,359 during the six months ended February 28, 2013. Our net income for the six months ended February 28, 2013 was \$603. By comparison, for the six months ended February 29, 2012 we incurred a net loss of \$47,433.

From the period from inception on August 9, 2011 through February 28, 2013, we have generated total revenue of \$178,310, incurred operating expenses of \$295,383, and incurred interest expense of \$20,232, resulting in a net loss since inception of \$137,305.

Liquidity and Capital Resources

As of February 28, 2013, we had total current assets of \$88,345 consisting of cash in the amount of \$44,977 and accounts receivable of \$43,368. We had current liabilities of \$150,230 as of February 28, 2013, consisting of accounts payable and accrued expenses of \$130,311 and accrued interest on our aircraft loan of \$19,919. Accordingly, we had a working capital deficit of \$61,285 as of February 28, 2013.

Our current aircraft loan is purchase money financing in the principal amount of \$212, \$212,813 secured by our Robinson R44 Raven II helicopter. The loan bears interest at the rate of six percent (6%) per year, and requires semi-annual interest payments of \$6,385, commencing on March 31, 2012, and continuing every six months thereafter. All principal and interest is due under the loan on August 11, 2016.

As discussed in the notes to our financial statements, we have not attained profitable operations and are dependent upon obtaining financing or generating revenue from operations to continue operations for the immediate future. As a result, our auditor has expressed a substantial doubt as to our ability to continue as a going concern. We may be required to seek additional financing in order to sustain our operations throughout the current fiscal year. We can provide no assurance that such financing will be available on terms acceptable to us, or at all.

Off Balance Sheet Arrangements

As of February 28, 2013, there were no off balance sheet arrangements.

Going Concern

We have negative working capital, have incurred losses since inception, and have not yet received revenues from sales of products or services. These factors create substantial doubt about our ability to continue as a going concern. The financial statements do not include any adjustment that might be necessary if we are unable to continue as a going concern.

Our ability to continue as a going concern is dependent on generating cash from the sale of our common stock and/or obtaining debt financing and attaining future profitable operations. Management's plans include selling our equity securities and obtaining debt financing to fund our capital requirement and ongoing operations; however, there can be no assurance we will be successful in these efforts.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

A smaller reporting company is not required to provide the information required by this Item.

Item 4. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of February 28, 2013. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and our Chief Financial Officer, Ari Nagler. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of February 28, 2013, our disclosure controls and procedures are not effective. There have been no changes in our internal controls over financial reporting during the quarter ended February 28, 2013.

Management determined that the material weaknesses that resulted in controls being ineffective are primarily due to lack of resources and number of employees. Material weaknesses exist in the segregation of duties required for effective controls and various reconciliation and control procedures not regularly performed due to the lack of staff and resources.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II – OTHER INFORMATION
